FlexSeal™ Elastomeric Waterproofing Paint

Description: An elastomeric modified acrylic coating with excellent flexibility, durability and weatherability properties, that will not peel or blister, even under extreme conditions.

Advantages: 100% waterproof, extremely durable, easy to apply, flexible and tropicalized.

Uses: For new or previously painted exterior/interior concrete surfaces. For properly primed steel or wood surfaces.

Coverage: 20 sq.m. depending on surface porosity.

Dry to touch: 1 hour

Dry through: 4 hours

Application: Brush, roller or spray.

Packaging: 16 liters, 4 liters and 1 liter.

Available Colors: White, Beige, Red, Terra Cotta, Black, Gray, Cream, Watermelon, Silver Gray, Salmon, Ivory, Tile Red, Copper, Mocha, Pink, Brown, Spanish Red, Midnight Brown, Cocoa Brown, Chocolate Brown, Polar Beige, Cement Gray, Clear, Sunflower, Green, Blue, Powder Blue, Aqua Green, Candid Blue, Fiesta Green, Baguio Green, Desert Beige, Orient Gold, Aquamarine, Jade Green, Mango Green, Avocado, Lime, Aqua Blue, Corn Yellow, Yellow, Violet, Bright Red and Orange. Special colors available upon request.

FlexSeal™ Gloss Elastomeric Roof Paint

Description: An elastomeric modified acrylic gloss roof coating, internally plasticized to retain its mechanical properties and flexibility; 100% waterproof and weatherproof seal adhering tightly to any roof surface.

Advantages: 100% waterproof, high gloss retention, easy to apply, flexible and tropicalized.

Uses: For new or previously painted concrete, metal, polyurethane, built-up roofs, roof tiles and asphalt shingles.

Coverage: 25 sq.m. depending on surface porosity

Dry to touch: 1 hour

Dry through: 4 hours

Application: Brush, roller or spray.

Packaging: 16 liters and 4 liters.

Available Colors:

White, Beige, Desert Beige, Polar Beige, Cream, Baguio Green, Spanish Red, Red, Terra Cotta, Copper, Sunflower, Corn Yellow, Salmon, Midnight Brown, Cocoa Brown, Chocolate Brown, Brown, Black, Green, Blue, Candid Blue, Orient Gold and Ivory.
